

InvisiGARD® Headlight Protection

Product No.:

IHP-7510

Description:

InvisiGARD® Headlight Protection is a 6 mil (150 micron) non-yellowing urethane film coated with an aggressive removable acrylic adhesive system. This adhesive system is designed to remove without adhesive transfer and/or damage to the applied surface.

Applications:

Protection of automotive headlamps, turn signals and fog lamps against chipping, breakage and deterioration due to stone and pebbles, bug and environmental damage, and abrasion. Due to the clarity and high gloss finish of this product, InvisiGARD® does not alter the aesthetics of the applied surface.

TECHNICAL DATA

	IMPERIAL	METRIC
Adhesive thickness:	2.0 mils (0.0020")	0.0508 mm
Substrate Thickness:	6.0 mils (0.0120")	0.1524 mm
Peel Adhesion (PSTC-1):	25.0 oz/inch	16.3 N/2.5 cm
Shear Adhesion (PSTC-7):	Indefinite @ 2.2 psi	Indefinite @ 15.2 kPa
Tensile (PSTC-31):	54 lbs/inch width	244 N/2.5 cm
Elongation:	410%	410%
Maximum continuous use Temperature:	212°F	100°C
Minimum application Temperature:	-10°F	-23°C
Release Liner:	90 lbs/ream Polycoated bleached kraft	148 GSM

The information listed is in good faith and has been established from sources believed to be secure and reliable. The values listed are typical properties and are not intended to be used as specifications for defined applications. User must determine the product suitability for the end use application and assume all risks and liabilities.
